

Q. After I file my application to have my record sealed, what happens next?

A. The Court will review your criminal history as it pertains to your application and determine whether you meet the criteria for sealing of records according to the statute. The Prosecuting Attorney can offer evidence and testimony in opposition to your application. The Court will conduct an investigation in most cases before making a decision. There is no set time frame for this decision. You will be notified if you are to be present at the hearing. You will also be notified of the Judge's decision.

Q. Once my record is sealed, can anyone get the information?

A. When people talk about having a record "expunged", they usually think this process will completely erase their criminal record, as if it never happened. However, in Ohio, adult convictions cannot be "expunged" or completely erased from your record. Instead of expungement, Ohio uses a Court process called "sealing of criminal record". When a record is sealed, the record of your conviction(s) or criminal charge(s) is filed separately from other persons' records. The record still exists but cannot be seen by anyone, with a few exceptions. For example, federal law enforcement agencies do not recognize Ohio orders (or orders from other states) sealing a criminal case. Someone with access to federal database information may be able to see your sealed record if the record was submitted to the FBI. Other exceptions can be reviewed in section 2933.32 (D) of the Ohio Revised Code.

Q. How can I review my criminal record?

A. You can review the Clerk of Courts file on your case either by going to the Records section of the Clerk of Courts located at the Montgomery County Courts Building, 41 N. Perry St., RM. 9, Lower Level, Dayton, OH 45422 or by searching online using the PRO System at:
